

Haseeb Tariq

Full Stack Developer

Lahore, Pakistan · +92 320 0014737 · Haseebtariq7669@gmail.com

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building production web applications across frontend, backend, and database layers, plus mobile development experience with Flutter. Skilled in delivering revenue-generating projects for international clients in the USA, UK, and UAE across e-commerce, healthcare, travel, and corporate platforms. Proficient in React, Astro, Node.js, MySQL, and Flutter, with end-to-end ownership from UI/UX design and API development to hosting and deployment. Strong Computer Engineering foundation with a track record of shipping fast, scalable, maintainable solutions.

PROFESSIONAL EXPERIENCE

Full Stack Developer | Weproms Digital

Feb 2026 – Present
Lahore, Pakistan

- Deliver end-to-end web solutions for international clients across USA, UK, and UAE markets, owning frontend, backend, database, hosting, and deployment.
- Built and shipped 6+ production projects in three months using React, Astro, Node.js, and MySQL, generating measurable revenue for the agency and its clients.
- Develop responsive, SEO-optimized frontends with React and Astro, improving page-load performance and Core Web Vitals.
- Design RESTful APIs in Node.js with MySQL, supporting authentication, content management, and e-commerce workflows.
- Manage hosting panels, domains, SSL, releases, and ongoing maintenance for client-facing production environments.
- Collaborate directly with international clients to translate requirements into technical solutions on tight timelines.

Intern — Quality Assurance & Documentation | Ethisol

Aug 2024 – Sep 2024
Remote · Lahore

- Performed quality assurance testing on web and software products, identifying and reporting defects to development teams.
- Authored technical documentation and supported R&D tasks contributing to product roadmap decisions.

Engineering Intern | Sui Northern Gas Pipelines Ltd. (SNGPL)

Jul 2024 – Aug 2024
On-site · Lahore

- Gained hands-on experience with Transformer Rectifier Unit winding and conducted underground gas leakage detection using laser-based equipment, supporting safety compliance across distribution networks.

KEY PROJECTS

MyHeartCare — Healthcare Platform (USA) · Astro · React · Node.js · MySQL

Built a healthcare-focused web platform with a clean, conversion-oriented frontend and secure backend for patient-facing content.

Under development: <https://myheartcareservices.com/>

Emirates EBCS — Corporate Website (UAE) · Astro · Node.js · MySQL · cPanel

Owned frontend, backend integration, hosting, service pages, contact workflows, content management, and production handoff.

Live: <https://www.emiratesebcs.com/>

Zora Beds — E-commerce Storefront (UK) · Astro · React · Node.js · MySQL

Designed and developed an e-commerce experience focused on product discovery, conversion, and a clean checkout flow; the store actively generates revenue.

Live: <https://zorabeds.co.uk/>

RH Travels — Travel Platform (UK) · Astro · React · Node.js · MySQL

Developing package listings, booking enquiry flows, and a content-managed backend for a UK travel agency.

Preview: <https://srv1328701.hstgr.cloud/rh-travels/>

Weproms Digital — Agency Website · Astro · React · Node.js

Building the agency's official website with service pages, portfolio proof, and lead capture.

Preview: <https://weproms.com/>

ACADEMIC PROJECTS

Final Year Project — Real-Time Gas Leak Detection System · Flutter + IoT

Designed a cross-platform mobile app connected to hardware sensors for live readings, instant threshold alerts, and incident history.

Mobile Development Contributions · Flutter

Implemented features, refined UI components, fixed bugs, and improved stability across university apps.

Hospital Management System with AI

Built a full-stack platform with an AI chatbot for appointments, patient monitoring, and medical information lookup.

Machine Learning Data Analysis & Prediction · Python

Performed preprocessing, training, validation, benchmarking, and evaluation on a Kaggle dataset.

Restaurant Management System · ASP.NET · C# · SQL Server

Built order, inventory, and customer management workflows in a complete web application.

TECHNICAL SKILLS

Frontend: React, Astro, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design, SEO Optimization
Backend: Node.js, Express.js, RESTful APIs, ASP.NET, C#, Authentication & Authorization
Mobile & IoT: Flutter, Dart, Cross-Platform Apps, Real-Time Hardware Integration, Arduino, ESP32
Databases: MySQL, SQL, Schema Design & Modeling
Languages & Tools: JavaScript, Python, Dart, C++ , C#, SQL, Kotlin (basic), Git, GitHub, VS Code
DevOps & Hosting: cPanel, Hostinger, Zoho, AWS (basics), SSL, Domain & Deployment Management
Professional: Client Communication, Problem-Solving, Project Ownership, Cross-functional Collaboration

EDUCATION

BS Computer Engineering 2021 – 2025
FAST National University, Lahore
Relevant coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Software Engineering, Computer Networks, Operating Systems, Embedded Systems, Digital Logic Design.

F.Sc Pre-Engineering 2018 – 2020
Govt. Islamia College for Boys, Lahore Cantt.

CERTIFICATIONS

- Google Certified Data Analyst
- AWS Cloud Services
- Cyber Security Analyst
- Python for Everyone
- MS Office Specialist
- SaaS Fundamentals
